May 2024 graduate seeking full-time opportunities as a Full Stack Developer

Education

8.27/10	B.Tech(CS) , Maulana Azad National Urdu University Hyderabad, India	2020 - Present
76.4	12th (Intermediate) , K.V. Public School Meerut, India	2018 - 2019
8.88/10	10th (High School) , K.V. Public School Meerut, India	2016 - 2017

Experience

Bharat Intern, Web Developer Intern | Remote

Jan 2024 - Feb 2024

- During my internship at Bharat Intern, I contributed as a web developer by designing and developing user-friendly web applications.
- I actively collaborated with the design team to implement responsive web designs and integrate them seamlessly into the development process, ensuring consistency in both visual appeal and functionality.

Oasis Infobyte Intern, Web Developer Intern | Remote

Oct 2023 - Nov 2023

- At Oasis Infobyte, I gained valuable experience as a web developer during my internship.
- My proficiency in HTML, CSS, and JavaScript allowed me to create highly interactive and visually engaging web applications, leveraging my strong foundation in these technologies to produce exceptional user experiences.
- I consistently fine-tuned and optimized the front-end codebase using HTML, CSS, and JavaScript, resulting in faster page load times and improved website performance.

Projects

Homestay Explorer - (MERN Stack App)

Dec 2023 - In Progress

A Tour and Travel Management Application

- The purpose of this Homestay Explorer is to simplify and enhance the travel booking experience, providing users with a user-friendly platform to explore, select, and book tours, while keeping them informed in real-time about their travel arrangements.
- Implement a robust analytics system that tracks user behavior, booking patterns, and popular destinations, providing valuable insights for the travel management team to optimize offerings and enhance customer satisfaction.

My Blog App - (MERN Stack App)

Jun 2023 - Sept 2023

Fully Functional MERN Stack Blog Application

- Used MERN Stack Technologies to build this application.
- A Application where any user can create, update and delete their blogs once logged in to our website.
- Showing all blogs to the homepage and also implemented a search feature.
- Implemented User Authentication feature so that any user can create their account to publish their blogs.

File Sharing Application - (MERN Stack App)

Jan 2023 - Apr 2023

A MERN Application which provides a download link for any file we upload.

- Upload any file to this application and just after uploading, we will get a link from which anyone (to whom we share the link) can download the same file by click that link.
- Used React JS as frontend, Express JS for building server, Node JS for backend and Mongo DB as a database.

Skills

Programming : Java, JavaScript, MySQL

Technologies : HTML, CSS, React JS, Express JS, Node JS, MongoDB

Developer Tools : Visual Studio Code, Git/GitHub, Netlify

Coursework : Data Structures and Algorithm, OOPs Concept, OS, DBMS
